

# K The Kingston NBN advantage

Land at Kingston Ocean Grove is one of the first estates in the region to be NBN Ready.

## **What is the NBN?**

The NBN is Australia's first national wholesale-only, open access communications network that is being built to bring high speed broadband and telephone services within the reach of all Australian premises.

## **What can the NBN do for me?**

Faster internet services and greater capacity will ensure the NBN has the potential to transform many aspects of our lives. This includes home internet and telephone services in areas such as education, business, entertainment and access to online health services.

## **When will connections be available?**

Stages 23 onwards form part of the 'greenfields' roll-out. NBNCo has advised connections will be switched on in the coming months. The NBNCo is keeping residents updated via their newsletter. You can register with them directly by calling 1800 881 816. In the mean time families who wish to access a temporary home phone can contact Telstra on 132200 to request a USO phone service.

## **Will earlier stages be connected and when?**

Earlier stages within Kingston form part of the 'brownfields' roll-out. For information on when these areas will be connected you can also register for the NBNCo newsletter or visit [www.nbnco.com.au](http://www.nbnco.com.au).

## **What do I have to do?**

By registering with the NBNco you will receive updates on service in your area. Ensure your builder is aware of your location and NBN requirements. Once the service is switched on you will be contacted by the NBNco to arrange installation of your Service. You can then contact your phone or internet provider to order services over the NBN.
